

The EU AI Act: Key actions for February 2025

Ensure compliance and strengthen your AI governance

In the fast-paced world of AI, it pays to stay ahead. With the EU AI Act enforcements coming into play, now is the time to ensure your compliance and secure your competitive edge.

The European Union Artificial Intelligence Act (EU AI Act) is a crucial regulatory framework for responsible AI development and deployment in the European Union.

With a February 2025 deadline fast approaching, organisations must align their AI systems with the Act's stringent requirements.

Points 9 and 11 of [Article 3](#), define 'on the market' or 'put into service' for AI systems, with specific exceptions to consider.

WHAT DO YOU NEED TO DO BY FEBRUARY 2025?

Cataloguing AI systems and creating an AI register

Compliance with this legislation not only mitigates legal risks but also promotes ethical AI practices, enhances transparency, and protects user privacy.

Act now to ensure compliance and strengthen AI governance, avoiding risks and penalties. Secure your AI systems now to safeguard your organisation's future.
